

# THE PROPOSED BUILDING

- With the decision to move forward utilizing the 23 Kringle Dr. lot, the committee decided to begin looking into the building.
  - It was determined a metal building would be more cost effective for the town and would also look great given the location.
- Preliminary drawings meet the needs of the FD.
  - An apparatus bay three doors wide with aisle large enough to operate in.
  - A training/meeting room to host trainings, and both department and town meetings.
  - A small kitchen.
  - Offices for meeting with the public, and reporting.
  - Ample room to hang gear.
  - A room to keep:
    - Maintenance tools
    - SCBA refill station
    - Gear washer and dryer
